

*Supporting families in Manitoba to plan for an enriched quality of life
for their family member with an intellectual disability*

Become a Member. . .

Continuity Care works effectively in partnership with families, community, government and service providers to assist individuals with disabilities and their families in developing a plan for the future.

Continuity Care does not rely on government funding. This was important to the founding board members, as they wanted to remain autonomous to provide advocacy to families when needed. Our main source of funding is our Endowment Fund that was established through The Winnipeg Foundation in 1998 to sustain the core operation of the organization in perpetuity. The Endowment Fund currently does not cover all of our yearly operating costs, therefore, we continue to fundraise and seek out grant opportunities.

Your financial support demonstrates a commitment to Continuity Care's mission and the valuable services that our organization provides to families in Manitoba. Through your support we are able to strengthen our programs and services and continue to provide families with the tools and resources they need now and to plan effectively for the future.
