

Continuity Care's COVID-19 Response Plan

Hello everyone – After thoughtful consideration and consultation with our board members and staff, Continuity Care has made the decision to postpone our parent and sibling groups, workshops, Baby Boomer Cafés, sharing circle gatherings and in person meetings, until May 1st, at which time we will reassess.

We feel that it is important that our office will remain open at this time and that our staff be available to provide families with much needed assistance and support and respond to inquiries by phone and/or email. In lieu of in person meetings, we will offer phone meetings instead; in keeping with the public health recommendations for social distancing to limit risk, exposure and possible transmission.

Larger events involving our organization and members are being postponed and new dates will be discussed and communicated in our next newsletter, by email and our social media pages.

Continuity Care believes that from our organizational perspective, we have a responsibility to be proactive in mitigating the spread of COVID-19. The health and well-being of our members, staff, volunteers and families is of the utmost importance and concern.

If you have any questions, please do not hesitate to call our office at (204)779-1679 or email me at suzanne@continuitycare.ca

Thank you in advance for your understanding and support. We encourage you to stay informed and healthy during these uncertain and quickly evolving times.

Take good care of yourselves and your loved ones,
Suzanne Swanton
Executive Director

Support. Planning. Peace of mind.
