Telling Your Family Member's Story

Presented by: Suzanne Swanton & Chanique Phillips

A life book or portfolio is a book that tells the story of a person's life that contains personal information, memories and photos. This workshop will help you to understand why it's important to create a life book and how it can be used to help others get to know the person and their history. We will share tips and creative ideas to help you to get started on a page for your own book. We will also introduce you to some of the programs and apps available to tell your story digitally.
