Continuity Care's COVID-19 Update - April 1, 2020

Hello everyone – We wanted to provide you with a brief update as to what is happening within our organization related to the COVID-19 outbreak .

Starting today, we have closed the Continuity Care office, in response to the Public Health Order for all non-essential businesses in Manitoba. We are working from home and available to assist our members to provide support and resources by phone and by email. Chanique and Suzanne will be reaching out to members – lifetime and annual – to check in and see how you are doing and assist if help is needed.

As mentioned previously, the parent and sibling groups, workshops, Baby Boomer Cafés, sharing circle gatherings and any in person meetings are postponed, until May 1st, at which time we will reassess.

We currently have the ability to host meetings and workshops via teleconference and are using this time as an opportunity to trial Zoom and other video conferencing platforms. We are working on plans to offer these options for meetings, groups and workshops during this time of social and physical distancing; and perhaps on a regular basis as well.

We are also gathering and sharing resources that we think will be of value to our members to help us all get through these challenging and uncertain times. Watch for our newsletter, emails and check out our website, Facebook and Twitter pages.

Please reach out to us if you need anything. We are here to help! Leave a message on our office phone at (204)779-1679 and we will get back to you OR you can email us

suzanne@continuitycare.ca chanique@continuitycare.ca patti@continuitycare.ca

Thank you in advance for your understanding and support. We encourage you to stay informed and healthy during these uncertain and quickly evolving times. Please continue to practice social and physical distancing, keep in touch with others and wash your hands often! Take good care of yourselves and your loved ones.

Stay Well!

Suzanne Swanton
Executive Director

Continuity Care Inc.

Support. Planning. Peace of mind.
